

CERTIFICATION

6300 Enterprise Lane | Madison, WI 53719 | drjcertification.org

Approved. Sealed. Code Compliant.

At DrJ, we simplify the code compliance process for innovators and stand behind our certification to help bring new products to the market.

DrJ's ANAB accreditation ensures our code compliance certifications for materials, products, designs and methods of construction are impartial, independent, objective, and consistent with international standards (i.e., ISO/IEC 17065).

The International Code Council (ICC) says ANSI, who owns ANAB, is the “highest possible standard”. ANSI evaluates the “necessary competencies” through a “rigorous accreditation process.”

Each accredited certification body is qualified to practice within their specified “accredited scopes” designated by an “ICS” number. DrJ’s accredited scope list follows.
