

Approved. Sealed. Code Compliant.

IN MARKET TERMS, DrJ IS “ICC-APPROVED”*

DrJ simplifies the code compliance process for innovators and is the only ANAB Accredited Certification Body to stand behind certifications with a PE seal.

VERIFICATION PROCESS: Acceptability of an approved agency, by a building official, is performed by verifying that the agency is accredited by a recognized accreditation body of the International Accreditation Forum (IAF). Examples include DrJ, ICC-ES, IAPMO, Intertek, and UL. Each accredited certification body, as a code-defined approved agency, is qualified to practice within their specified “accredited scopes.”

CODE ACCEPTANCE FOR NEW PRODUCTS: Building codes require that the building official shall accept duly authenticated reports or research reports from approved agencies and/or approved sources, including licensed Registered Design Professionals (RDs), with respect to the quality and manner of use of new products, materials, designs, services, assemblies, or methods of construction. See DrJ’s scope of expertise below.
